

Diaphragm Meter Conversion Kit

Dresser Natural Gas Solutions is pleased to offer an easy and quick diaphragm changeout kit to assist our customers in converting existing diaphragm meter sets to be 10C25 compatible. Available with and without drain plugs, our conversion kits allows for the quick and easy changeout resulting in reduced footprint and greater measurement accuracy. Compatible with 8-1/4" and 11" center to center IPS connections. Please consult factory for other configurations.
